You really have done a great job! It is obvious that people in audience are enjoying this event just because there is much more of them than during obligatory class. Have you worked with the speakers? Because they really are good. It keeps me challenged for next year. Thank you very much!

~~For~~ Many thanks, it was very well organised. I positively enjoyed the presentations, especially in the second part. I didn't have time to compete this year, but I'll definitely consider applying next year.

Great job.

It would be interesting a session about secret societies, anunnakis, sacred symbology and gematria.

I know the time limit was restricted, however, according to the 3th presentation there could have been maybe more questions (I had one).
